To the Publishers of the BOSTON GAZETTE.

*Please to give the following Piece a Place in your Paper.*

*Boston, Nov.* 22, 1744.

I THINK it a sufficient Reason for the following Reply to a Letter in *last Monday's Evening Post*, respecting Mr *Whitefield*, to say — That as a gracious GOD was pleas'd to attend his former Ministry among us with a remarkable Blessing, in the *Conviction* and hopeful *Conversion* of Numbers; agreeable to the Declaration of our most *eminent Ministers*, who have had the *nearest* Access to the Subjects of this Work, and therefore have had the *greatest Advantages* of judging both of their *Experiences* and *Practices*: And as he may be still improv'd for the same happy Purpose; it seems of Consequence, that every considerable Obstruction, and this in particular, should be removed.

The grand *Objection*, which the Author of the Letter raises, against Mr *Whitefield* is, *That the Errors & Disorders that have prevailed so mightily in the Land, are to be ascribed to his Ministry.*

If by this *Ascription* nothing more be intended, than that Errors and Disorders have been *consequent* upon his Ministry, it is in my Judgment no sufficient Argument against it, if true. We are all sensible, that Errors and Disorders were the Consequence of the *Apostles* Preaching; particularly unhappy *Contentions* and *Parties* were formed by it, one saying *I am of Paul*; another *I am of Cephas* &c. And we universally and most justly ascribe the Blame of this to the *People only*; and for the same Reason, they may be the Consequence of Mr *Whitefield's* Ministry; and the Blame should be ascribed to the *same Cause*. It is therefore a most unreasonable Thing to charge Mr *Whitefield*, with any Thing that is not a *just Effect* of his Preaching. If any affected by him have *corrupted* his Doctrines, or drawn *improper Consequences* from them, or gone into *different Sentiments* from him, *They*, and not Mr. *Whitefield*, must bear the Blame of it. Thus, for Instance, if any have run into the wild Notion of the *Antinomians*, it would be vastly injurious to charge Mr *Whitefield* with this, since *Antinomianism* were not the Principles he inculcated, and by which they were at first affected. Or if People have *separated* from the Ministry in some Places from an Apprehension that these Ministers were *unconverted*, and so *unqualified* for the Office be sustain, in Consequence of what Mr. *Whitefield* has delivered upon this Head; yet it can be no Fault of his: And that it is *none* it plain to me; for tho' it be true, that an unconverted Minister is destitute of a very necessary Qualification, yet it does by no Means follow from it that we should believe him to be unconverted without *sufficient Evidence*, nor even then to *separate*; but to take the Steps of the Gospel to have him removed, or if this be possible, it may yet be true, that a very unqualified Minister is better than none. They doubtless mistake Mr. *Whitefield's* Meaning, in this Question — *How can a dead Man beget living Children?* applied to *unconverted* Ministers, who can think he intended any Thing but some imperfect Resemblance in the Simile: for by comparing it with his other Expressions on this Head, every candid Person will find, that his Opinion was no other than this, that *an unconverted Minister is a very unsuitable and unlikely Instrument to raising Sinners from the Death of Sin to the Life of Grace.*

And I cannot on this Occasion, omit to observe, that it is astonishing to me, to consider, how greatly Mr *Whitefield* is abus'd in this Matter of *Separation*; for not only is it no *just* Consequence of his Principles; but as far as I can learn, there is not a Separation in all *New England* in *real* Consequence of them. They have all arisen from Exceptions against either the *Principles* or *Conduct* of Ministers, and not from meer Surmises of their being *unconverted*. The Separation in Town to be sure is owing to this, since it is from Ministers that are owned to be pious Men, by the Separatists themselves.

But if the Author of the Letter means that the Errors and Disorders he has in View are *just* and *proper Effects* of Mr. *Whitefield's* Preaching, it must then be owned a weighty Charge, and ought to be supported with a proportionable Degree of Evidence. But is this the Case in Fact? Is it supported by any Thing save the single Efficacy of the Word *Disorders*? But really a Charge so high as this is, must be deemed a most criminal Slander, unless something more convincing can be produced.

What therefore I insist upon is this, That the Author of the Letter *specify* the *Errors* and *Disorders* which he pretends have mightily of late prevailed; and then *justify* this Specification by *sufficient* Authorities & say *positive Assertions*; for hitherto this has not been done. Such Things have indeed boldly affirmed, as unquestionable Realities, of the Work *in general*. But this has been as confidently denied? No Attempt to be sure has yet been made to prove the Charge of *Errors*, from the *Confessions* of *the Subjects* themselves, which is the only fair and just Way in such Cases. And if those Gentlemen, who have united in the mighty Cry of the dreadful Prevalence of *Errors*, were call'd upon to support the Charge, by the *Professions of the People* whom it is rais'd against; they would soon find it an impossible Thing. For Instance, *That Sanctifying Grace is necessary to render the Administration of the Gospel Ordinances valid: That internal Sanctification is no Evidence of Justification: That Assurance is essential to saving Faith and Conversion*; in this Sense namely, that a true believer knows himself to be a true Believer, *and is never in Doubts and Darkness*. The Charges of these and such Errors will appear most abusive Slander, if the People *in general*, that they are rais'd against may be allow'd to speak for themselves. and if we must abide *by their own Professions*. If these and such as these are the Errors that the Author of the Letter has in View, I am satisfied he can never support his Charge against any Part bearing a *considerable* Portion to the whole Number, by this *only sure Method*. Nay from what I have seen and heard I will venture to say, that he cannot instance any *ten* among *the Hundreds* in *this Town* who have been lately wrought upon, that own these Principles.

But if this can be obtain'd it will still remain to be prov'd, that they are the *just Effects* of Mr. *Whitefield's* Ministry; which I am persuaded is an impossible Thing.

Until all this is fairly accomplished, we must esteem such Charges to be nothing better than railing Accusations, the genuine Fruits of a most uncharitable and censorious Temper? and treat them for the future as we have hitherto generally done, with the Neglect they justly deserve.

Capt *Powell* (who is exceeding well-belov'd by his Men) finding them something too hot for him, after 3 Hours Engagement, gave Orders for boarding the largest Ship, which the Men comply'd with, and she surrender'd immediately, tho' she had 70 Men on board, and the *Queen of Hungary* but 65 In the Action 7 Men on board the Privateer were kill'd, and 23 wounded; and on board the *French* Ship 30 Men were kill'd and all the rest except 12 or 14 were wounded This Vessel mounted 16 Carriage Guns The Consort Privateer engaged the other *French* Ship of 14 Carriage Guns, when she came up, and fought her from 8 o'Clock in the Morning 'till 2 in the Afternoon, when her Powder being spent she was oblig'd to leave her.
